Instructions on How to Get Google Maps Link:

- On your computer tablet or phone, open Google Maps and search for the location by address or GPS coordinates.
- On the top left, click Menu (displayed as ☰).
- Select Share or embed map. If you don't see this option, click Link to this map.
- Copy and paste the link wherever you want to share the map.

Google Maps Link

GPS Coordinates

Instructions on How to Get GPS Coordinates on Google Maps:

- On your computer tablet or phone, open Google Maps.
- Right-click the place or area on the map.
- Click the latitude and longitude displayed at the top of the popup and they will automatically be copied to your clipboard.

Latitude

(DD – Decimal Degrees; Example: 35.342793 – Note: use periods, not commas)

Longitude

(DD – Decimal Degrees; Example: -82.4774451)

Directions to Site

(Directions to Site from a Nearest City or Intersection)
